Gentlemen,

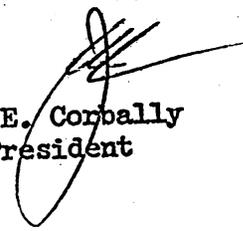

For some time we have been attempting to develop and to clarify personnel processes and procedures as they relate to the academic/professional (sometimes known as professional/administrative) staff of the University. Under date of November 4, 1977, I received a letter (copy enclosed) from the chairpersons of the campus Professional Advisory Committees which led to my response of November 11, 1977 (copy enclosed).

Following appropriate consultation, I am now asking each of you to serve as a member of the Advisory Committee proposed in the Rothbaum Committee report and endorsed in the PAC letter of November 4. I am asking Vice President Brady to serve as chairman of this Committee and to convene it for its initial meeting in the immediate future. Dr. Brady and I have discussed the work agenda for the Committee and he will outline that agenda for you.

I consider this effort to be a most important one and I hope that each of you will be willing to serve. I will look forward to reports of progress and to the receipt of recommendations as your work moves ahead.

Thank you and best regards.

Sincerely,

John E. Corbally
President
